

Do not approve the proposed media deregulation. We need less not more contraction in media ownership. It is important that U.S. citizens have access to various points of view in any given viewing/listening area. Already there is too much bias in which news is reported, which facts are emphasized and how they are interpreted. It's bad enough that there are fewer than 10 companies which control some 90% of our TV, cable and newspaper outlets. Please let's think about this some more. What else could transpire from the suggested regulation? What more than what you expect? Please think about it and vote NO now. Sincerely, Gail A. Bryant
